

ALLSTATE GASKET MATERIAL SPECIFICATIONS

STYLE 1171 and 1171-NM Wire-Inserted and Non-Metallic CARDED GLASS TACKY CLOTH

Features: Carded-glass tacky cloths are made to exceed the performance of other glass or asbestos-free tacky gasket cloths. They are easy to fold into gaskets and typically retain four to five times more of their original tensile than regular glass tacky cloths under the same load. They are better sealing, safer, longer lasting.

Material: Made from woven carded - glass cloth with both sides coated with a heat-resistant binder.

Color:

Recommended Uses: Recommended for applications such as boiler manholes and handholes, flange joint gaskets and similar uses.

- Available in full rolls - see sizes below
- Available in sheets
- Can be supplied in cut-to-width strips

Operating Temperature: 600°F (316°C)

Sizes: See product sizes below.

Thicknesses: 1/16"

Style #	Description	Standard Rolls	LBS./SQ. Yard
